

Enrich UofR Student Club Apprentice Position
Updated July 8th, 2022

Enrich UofR Campus Apprentice(s):

Apprenticeships can be one or two people within one position at any given time. Apprentices can work either from Sept.-June or from July-August. If they wish to continue in leadership for longer than one term they may reapply and continue working as an apprentice.

The goal here is for current apprentices to lead up the next apprentices that will take their place as they grow in their faith. This position can be held by a current student, alumni or a non-student.

This role is an on-the-ground position for someone that wants to work directly with University Students. We currently have a student club called (Enrich UofR) this person will be in charge of leading the operation of Enrich UofR Student Club with their leadership team. They can help build that leadership team and present that team to be voted in at the beginning of every school year. The apprentice will lead these students during the year. They will mentor them, disciple them, delegate positions and tasks to achieve goals and execute events. They will also develop a small group system or network that empowers students to lead each other (They mentor their leaders and those leaders will mentor others etc.)

Mentoring: The Apprentice will be mentored by the lead Pastor and then in turn will mentor their team in whom they are leading. They can choose the frequency of those meetings but the meetings must be consistent. If there are two apprentices, they can share the team for mentoring (guys together/ girls together)

Specific Jobs:

1. Create a goal and vision for the Enrich UofR Campus Club on a year to year basis (what is our one goal for this year?)
2. Delegate jobs to their team (Event Coordinator, Recruiting Coordinator, Community Coordinator)
3. Lead their team in creating an event calendar for the upcoming year.
4. Lead their team in booking tabling in the Riddell Centre for recruiting and advertising.
5. Work directly with the union in setting up food hampers for students and filling the Campus Community Fridge with food (once-twice a month).
6. Lead their team in proposing a budget for the Student Club at the Enrich Life Annual General Meeting in September 2022.
7. Lead their team in presenting a ministry review and overview at the Enrich Life Annual General Meeting in September 2022.
8. Lead their team in developing a strong social media platform for the Enrich UofR Student Club (regular posts, personal posts, event posts etc.)
9. Lead their team in regularly reaching out to the Enrich UofR Members Community (coffee, mentoring, reaching out, connecting with those people).

10. Regularly communicate with the lead Pastor and other apprentices in Bi-Weekly staff meetings, reading their given material to grow in their personal journey with God, and regularly practicing strong spiritual disciplines both publicly and privately.

Leadership Retreat(s) and Meetings:

We do not want to create a hierarchy at Enrich Life. This means that we want our entire leadership to be visible with everyone (even though specific people will be working together). We want to do this so that people can have different roads of accountability with Enrich Life. If someone needs to go around their leader or report something that has hurt them etc. they will know the other leadership in our church so they know where to go for help.

We want to meet as an entire leadership team once-twice a semester in mini-retreats. These will be longer meetings where we discuss the health of each other and our church. We will also discuss the book we are reading and bring in someone to do leadership growth for our church community. We want Enrich Life to be healthy and visible to each person filling a leadership position rather than feeling micromanaged or having no relationship with the other leaders.

We will do an overnight retreat in the winter semester as an entire leadership team. We will provide the details and dates as you sign up for your leadership position.

Who Mentors Who?

Leader Pastor / Apprenticeship Mentoring
(Meeting Bi-Weekly)

Lead Pastor, Enrich Life Church Apprentice, Enrich UofR University Apprentice

This will include how operations of specific jobs are going. Struggles/Strengths. Where is support needed? The last part of these meetings will include spiritual growth with the book reading and discussion.

Enrich Life Apprentice / Volunteer Teams Mentoring
Enrich Life Church Apprentice, Volunteer Teams (Worship Team, Grow Group Team, Hospitality Team)

We want our leaders to become empowered in their leadership. Our apprentice for Enrich Life will recruit these volunteer teams and mentor the leaders of these

teams. They can do this through consistent mentoring meetings or events—it is up to them to see how the most effective way for team growth is for their type of leadership. The Lead Pastor will Support them in this process.

They will also make sure that tasks are being completed and done well throughout the year. We want our volunteers at Enrich Life to be empowered and ministered to as they minister to the church. At Enrich Life we just don't serve for the sake of serving; we serve to please and worship Jesus. As we do that we will grow together and build community around these mentor groups.

Enrich UofR Student Club Mentor Team

Enrich UofR University Apprentice, their three student club leaders (Recruiting Coordinator, Community Coordinator, Event Coordinator)

We want our leaders to become empowered in their leadership. Our apprentice for Enrich UofR Student Club will help recruit these three coordinator positions and will have the responsibility of mentoring / leading them. They can do this through consistent mentoring meetings or events—it is up to them to see how the most effective way for team growth is for their type of leadership. The Lead Pastor will Support them in this process.

They will also make sure that tasks that fall under the coordinator positions are being completed and done well throughout the year.
